

Privacy Policy – ARGOS

Last updated: May 2026

ARGOS is a vehicle security and GPS fleet management platform operated by R42.

This Privacy Policy explains how ARGOS collects, uses, and protects information when using the mobile application and related services.

1. Information Collected

ARGOS may collect and process the following information:

- Vehicle GPS positions transmitted by compatible GPS trackers
- Trip and route history
- Geofencing and security alert information
- User account information required for authentication
- Device technical information required for application functionality

2. Use of Device Location

The ARGOS mobile application may request access to the device's native location services.

Location access is used exclusively to allow the user to display their own position on the map in relation to tracked vehicles, for example to help locate a parked vehicle.

The device location feature:

- is activated only after explicit user action,
- is visible to the user within the application interface,
- can be disabled at any time by the user,
- is not used for hidden or permanent background tracking.

3. Purpose of Data Processing

Collected information is used exclusively for:

- vehicle tracking and visualization,
- fleet management,
- security alerts,
- geofencing and corridor features,
- displaying vehicle and user positions on maps,
- improving service reliability and security.

4. Data Sharing

ARGOS does not sell personal data.

Data may only be shared:

- with authorized users of the platform,
- with technical service providers necessary for platform operation,
- when legally required.

5. Data Security

ARGOS implements reasonable technical and organizational measures to protect data against unauthorized access, alteration, disclosure, or destruction.

6. User Rights

Users may request access, correction, or deletion of their personal data by contacting the operator of the service.
